

Beef, Veal and Lamb Report

Beef, Veal & Lamb- Beef output last week was shortened due to the holiday, declining 14.2% from the prior week but was up 3.6% versus the same week last year. Fairly large cattle slaughter is anticipated during the next few weeks which could weigh on the markets. However, forward sales are starting to escalate, reaching an 11-week high last week, which suggests price support could develop thereafter. Forward ground beef and chuck sale prices are holding up well, similar to the current spot markets signaling the downside price risk in those items may be nominal. Beef output is forecasted by the USDA to remain well above 2016 levels for the time being but some supply gaps could occur this fall.
