

## Iceberg Lettuce (24 count)

Lettuce prices have soared this week due in part to the recall on romaine. The FDA and CDC have advised consumers to stop consumption of romaine which has essentially stopped commerce of romaine and driven demand to other lettuce types. This could cause the lettuce markets to be especially erratic during the next few weeks. Avocado supplies have improved considerably since the work stopped in Mexico culminated earlier this month. U.S. avocado imports from Mexico last week were up more than two-fold from the same week last year.
