

Seafood

May retail seafood prices in the U.S. rose .5% from the prior month and were 1.4% more expensive than the same month last year. Other retail protein prices, including beef and chicken, trended at multi-year lows during the spring. If this continues it could limit retail seafood demand this summer. The upside may be limited in many of the seafood markets here.

Description	Market Trend	Supplies	Price vs. Last Year
Shrimp (16/20 frz)	Decreasing	Good	Higher
Shrimp (61/70 frz)	Increasing	Good	Higher
Shrimp Tiger (26/30 frz)	Increasing	Good	Higher
